

DIRECTIONS: Fold two pieces of paper together to make four pages (see your teacher's example), label each page with the categories listed below, and then respond to the prompts to be included on each page. Use your textbook, Discovery Education, and other online resources for your research! Please cite the sources you use on the pages where you use them. Each fully completed page is worth 25 points (100 total).

PAGES:

Philosophy (25 pts):

- What are each of the philosophers known for? (list three important details):
 - Socrates
 - Plato
 - Aristotle
- Illustration of philosopher OR picture to represent that philosopher's ideas
- Split this page into three equal sections.

Athletics (25 pts):

- What was the purpose of the Ancient Olympics? Describe.
- Create a Venn diagram: Compare modern & ancient olympic games
- Include AT LEAST ONE illustration of an ancient Greek event and a modern olympic event

Sciences (25 pts):

- Explain advances made in the following three areas:
 - Mathematics
 - Medicine
 - Engineering
- Explain how each is still significant in our world today!
- Include images of your examples.

Arts (25 pts):

- Identify AT LEAST ONE famous piece of Greek artwork in the following three categories:
 - Statues
 - Paintings
 - Architecture
- How are these pieces of art influential today? Explain.
- Include images of your examples.
