

Mesoamerica – Geography

Module 18.1 lesson assessment questions

1. Where is Mesoamerica?
2. In what ways is the geography of Mesoamerica good for agriculture?
3. What landform do most scientists think early people crossed to reach America?
4. Why do you think scientists aren't sure how the first people came to the Americas?
5. What was the first crop domesticated in Mesoamerica?
6. How might the Olmec civilization have influenced later civilizations in Mesoamerica?
7. Create a graphic organizer to show how the development of maize farming laid the foundation for cultural advances? (one option – boxes with arrows between them)
